AUDION D555 BAND SEALER

A FRESH LOOK FOR THE D555 BAND SEALER

The D555 is Audion's most compact band sealer with integrated conveyor. On this clever tabletop model pre-made bags are sealed lying flat. The integrated conveyor is adjustable in height and can be pulled out towards the operator for larger products.

The use of PTFE belts makes the machine suitable to seal a wide range of bags.

All operating parameters are controlled by a digital control panel, including an automatic cool down function, which makes the machine easy to operate.

“ COMPACT TABLETOP MODEL
BELT SEALER FOR CLOSING
READY MADE BAGS IN A SIMPLE
AND FAST WAY”

Technical specifications	D555
Dimensions (l x w x h) mm	613 x 457 x 267
Weight	appr. 30 Kg
Max. speed conveyor	adjustable 0 - 10 meter per minute
Min-max. sealing temperature	25 °C - 200 °C
Sealing width	10 mm
Film material	Prefabricated bags of PE, PP, Cellophane, Paper-, Aluminium- and other laminates
Film thickness	min. 2 x 25 micron/max. 2 x 200 micron
Power supply	230 V +/- 10% - 1 ph- 50/60 Hz
Power consumption	1100 Watt
IP value	IP20
Low Voltage Directive, EMC Directive, Standards	2006/42/CE, 2004/108/CE, EN-ISO 12100, EN-IEC 60204-1
