AUDION AIR PILLOW

NEW DESIGN AIR PILLOW MACHINE

Audion proudly presents the Audion Air Pillow machine. The modern, compact design makes the machine suitable for every packaging situation; from store to industrial environment.

The machine turns a strip of flat, easy-to-store film, into lightweight air cushions that can be torn off at the required length.

Audion offers a variety of films for the air pillow machine. The selected film determines the pillow size. Operators can control the air fill levels for the inflatable packaging.

BENEFITS OF AIR PILLOWS:

- **Cushion:** protects fragile products.
- **Void fill:** fills empty spaces and prevents product-against-product damage
- **Block & brace:** stabilises heavy products or individual articles in their position.
- **Wrap:** covers product surface to avoid contact damage and provides protection against scratching.

Technical specifications	Air Pillow
Dimensions (l x w x h) mm	421 x 286 x 375
weight	16,5 kg
Max. packaging capacity	15 m per min.
Film material	Prefabricated foil LD/HD and LD/HD blend
film thickness	2x20 - 2x40
Max. film roll width	250 mm
Power supply	115/230 V - 1 ph- 50/60 Hz
Power consumption	440 W
IP value	IP20
Low Voltage Directive, EMC Directive, Standards	2006/42/EC, 2004/108/EC, EN-IEC-60204-1 EN-ISO 12100
